

**PURPLE HEART LICENSE PLATE PROGRAMS
(STATE BY STATE)**

This section provides details on each state’s Purple Heart License Plate program to include cost, step by step procedures to acquire them, and whether or not a surviving spouse can use them.

As this information is constantly changing, please forward any changes you encounter to the National Adjutant (adjutant@purpleheart.org).

Possible Action Item. This section can also be used to determine if a state’s MOPH organizations (Chapter and Department) need to work with their legislatures to gain free or very low admin fees for Purple Heart License Plates in their state. Currently, six states offer free plates and registration for Purple Heart recipients. Thirteen states offer free plates, but require payment of normal registration fees. The rest of the states have a varying mix of costs for plates and registration.

Of interest, the Connecticut and New Jersey Purple Heart license plate programs are administered by Purple Heart members in the name of the State.
